### 1950 Farmall Super A | eBay

The Farmall Super A was manufactured by International Harvester in the years 1947-1954. The Super A was an updated improved model of the A. One of the biggest changes was in reply to the 3-point system of Ferguson used on the Fords, a new touch controlled hydraulic system. The Super A has 4 forward gears and 1 reverse gear, and featured a wide front end, a 113 cubic inch 4 cylinder gasoline and kerosene engine.

### Farmall Super A Tractors, Parts, Information, Manuals ...

The Farmall A used the same powerplant as its predecessor, the F-12--an overhead-valve, 113 cu in four cylinder. There were two versions of this rugged engine available, giving buyers the option of running on either kerosene or gasoline.

### 1947-'54 Farmall Super A | Hemmings

The Farmall Super A had an International Harvester classified C113 engine. The Super A engine was gasoline-powered and had four cylinders, a displacement of 113 inches and a compression ratio of 6-to-1. This tractor had a bore and stroke of 3 inches by 4 inches, and the spark plug firing order was 1-3-4-2.

Farmall Super A White Demonstrator Tractor. View the original source document: WHI 46226 The common belief in the IH collector community is that White Farmalls for the "Mid-Century Sales Promotion" were made in the first three months during 1950. For this campaign demonstration

tractors were painted white instead of the usual Harvester Red color.

### **White Farmall Demonstrator Tractor | Wisconsin Historical ...**

In the early 50s, IH introduced the Super Letter series - the Super A had been introduced in 1947 with around 17 HP and a hydraulic lift. The Super C came in 1951 with 23 HP and the two-point "fast hitch." In 1953, the Super H and Super M replaced the "ordinary" H and M with 30 and 44 HP respectively.

### **International Harvester Farmall Tractors during the 1950s ...**

The Letter series tractors were updated to the Super series beginning in 1947 with the Super A, 1951 for the Super C, 1952 for the Super M and 1953 for the Super H, the B and BN models having been dropped from production and replaced with the C in 1948, which combined the attributes of both models into one tractor, while moving the operator position on top of the tractor in a more traditional layout like the H and M.
