Social intuitionists such as Jonathan Haidt argue that individuals often make moral judgments without weighing concerns such as fairness, law, human rights or ethical values. Thus the arguments analyzed by Kohlberg and other rationalist psychologists could be considered post hoc rationalizations of intuitive decisions; moral reasoning may be less relevant to moral action than Kohlberg's theory suggests.

Normative Moral Judgments Most of the examples given above are non-moral. (If you don't understand the difference between moral and non-moral, review the previous section.) We are not interested in these, but in normative moral judgments. In fact, this entire work is particularly concerned with normative moral judgments.)
